Kalaburagi is an educational hub, we proudly say that we have 4 universities, with numerous courses. It has all the modes of connectivity , road, rail & air to all the major cities. It's also very rich in solar resources.

But, the graduates produced by us are not in a position to readily assume their due role, in the industrial development of Kalyana Karnataka region, due to a wide gap between the theory which is designed in their curriculum and the practical aspects.

Hence, the main purpose of this webinar is to gain the knowledge of how to bridge a gap between the theoretical concepts of entrepreneurship towards the practical execution in reality. Through this platform, we the people of Kalyana Karnataka aim at sanitizing our younger generation , girl students, women entrepreneurs, to overcome the obstacles in their endeavour and step towards an Atma nirbhar self-reliant women.
